Reports:

Treasurers Report: We refer back to March Report. During the transition time to our new Treasurer, Carolyn Russel, there will be a delay. Next month we hope to have a report.

Membership Report: We now have 65 members. \$4,700 was received todate from dues and donations.

Water Quality Report: Tom was not able to get out on the lake this month. There will be less runoff this spring due to low snow pack. It is predicted that we will have a warmer and dryer summer this year.

Water Level Report: The measurement is now at 5.8. There is still activity with the beaver dam that will cause the lake to remain higher than normal.

Lake Host Report: Veta should arrive and take her position of Lake Host by mid May. Vern will be checking into training for him and Veta to take part in.

Education Report: Gary has been in touch with the Principal of Southside Elementary School and Miles from Fish and Game to set up a time for the Wetland Tour. They are thinking the last week of May but there is no confirmation yet.

New Business:

There was a discussion about the new construction around the lake. Several houses and the wedding venue were mentioned. We would like to, somehow, inform the new residents and new business about how they can be responsible to maintain the water quality of the lake. It is all property owners responsibility to be aware of water quality.

Rick Taylor will research ways to get information to the new property owners to keep them informed.

The meeting was adjourned.

The next meeting: Thursday, May 23rd, 2024
